

Felden Cartoons

Marianne Björklund

I have lost my
sitbones

What's up?

How do you know that?

My felden helpt
me to find them,
now they are
gone!

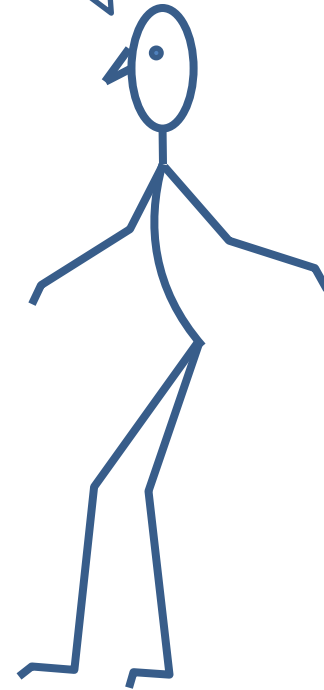

Can't you live without them?

My neck and lower back hurts when they are gone.

Do you remember what the
felden did with you?

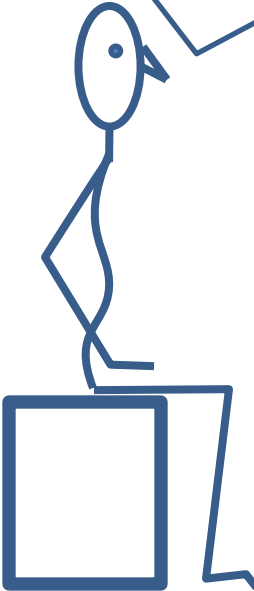

She told me to
stand up and sit
down.

Can you show me??

Well, my bump
is to heavy.

A simple line drawing of a stick figure sitting on a square box. The figure is facing right.

Now I remember, it
has something to do
with the pelvic..

A simple line drawing of a stick figure standing and gesturing with its right arm extended to the right. The figure is facing left.

Try again !

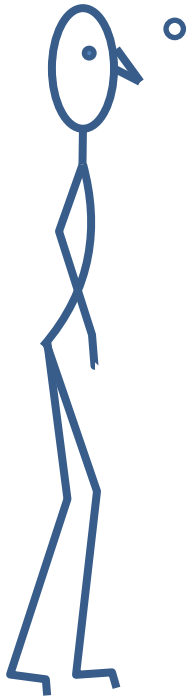

Yippi, I found my
sitbones again !

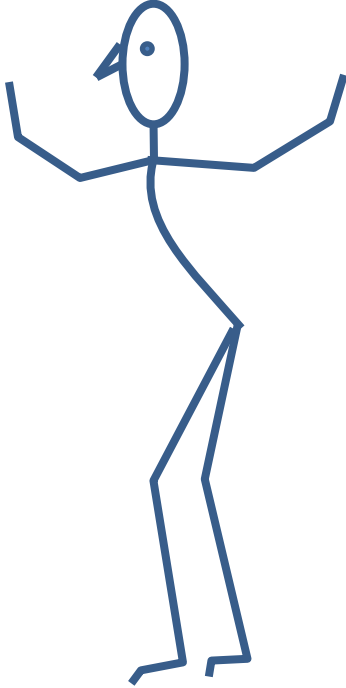

Congratulations!

Now, I am
happy again.

Pelvic, pelvic ...
